

June 2012

## Bowl Shaped Pothead

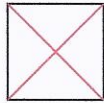

Two 10" squares cotton fabric

Two 10" squares cotton batting

Cotton thread

Pair each square of fabric with a square of batting; have the batting on the wrong side of the fabric. Sew each square separately as follows:

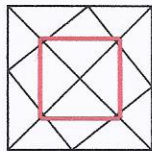

Sew an X in the square by sewing on the diagonals from corner to corner.

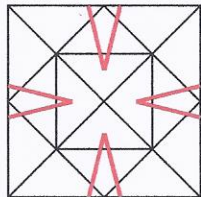

Mark the centers of the sides; sew a square by sewing from one mark to the next.

Sew an inner square using the crossing points of the first two sets of lines.

Sew a dart about 3" long and  $\frac{3}{4}$ " deep at the center of each edge on each side.

Place the two sewn squares right sides together. Sew together with a  $\frac{1}{4}$ " seam around the perimeter, leaving an opening for turning right side out. Trim corners. Turn; sew the opening closed by hand, OR pin the opening closed and top stitch around the whole thing with about a  $\frac{1}{8}$ " seam, which closes the opening at the same time.

$\frac{3}{4}$ "
